

MANUFACTURER'S DECLARATION OF CONFORMITY

CLS Rescue Line Assembly - *Replacement Component of the CLS Upgrade Kit*

1. Manufacturer

Inshore Safety Kft.

8640 Fonyód, Szent István u. 77

Hungary

✉ info@inshoresafety.com

🌐 www.inshoresafety.com

2. Product Identification

Product name: **CLS Rescue Line Assembly**

Product type: **Replacement component**

System affiliation: **CLS Upgrade Kit / CLS Rescue System**

Product variants:

- CLS Harness Kit – Lifebuoy version (Product code prefix: IS-HNK-R-...)
- CLS Harness Kit – Horseshoe buoy version (Product code prefix: IS-HNK-H-...)

3. Declaration

The manufacturer hereby declares under its sole responsibility that the above-identified product:

- is a **replacement component** intended exclusively for use as part of the **CLS Upgrade Kit**,
- is **not a standalone life-saving appliance**,
- does **not introduce additional hazards** when used as intended within the CLS Rescue System.

4. Applicable Legislation

The product complies with the applicable requirements of **Regulation (EU) 2023/988 General Product Safety Regulation (GPSR)**.

As a replacement component and accessory product, the CLS Harness Kit does not fall within the scope of any mandatory EU harmonisation legislation requiring CE marking.

5. Safety and Risk Assessment

Product safety is ensured through a system-level risk assessment and safety concept.

The CLS Rescue Line Assembly is covered by:

- **Product Safety and Risk Assessment Report – CLS Upgrade Kit**, and
- **Product Safety & Risk Assessment Declaration – CLS Rescue Line Assembly**

No additional or new risks are introduced by the replacement component when used in accordance with its Instructions for Use and as part of a compatible CLS Upgrade Kit.

6. Technical Documentation

The following documentation forms part of the conformity assessment:

- Instruction for Use – CLS Rescue Line Assembly
- Instruction for Use – CLS Upgrade Kit
- Product Safety and Risk Assessment Report – CLS Upgrade Kit
- Product Safety & Risk Assessment Declaration – CLS Rescue Line Assembly

All documentation is retained by the manufacturer and made available to market surveillance authorities upon justified request.
